

My boards and all Windows.

Andrew Unison was asked to have Harry Turner repair door latch and remove excess hardware from front door.

Mr. Unison was given discretionary power to have moldings removed from top of bookcases, provided the cost is not prohibitive. It was agreed that the appearance of the Library would be improved by the removal of these moldings, top heavy in appearance, now outdated and difficult to keep clean.

Mr. Unison was advised to see Mr. Castle or some other interested party to remove lumber and debris from side of Library Building.

Mrs. Tom Hall volunteered to secure someone to cut back bushes in back yard.

Mr. Knight will have Mr. Jester Applebey remove small building and all debris from Jewkes property. Also Mr. Knight will see Willard Wolcott to haul granite blocks from former site of Jewkes House to some suitable place on the property.

Minutes read and approved.
Meeting adjourned at 9:45

Respectfully Submitted,
Louise W. Moore
